Abbott, Booth 301

www.abbott.com

At Abbott, we're committed to helping people live their best life through the power of health. For more than 125 years, we've brought new technologies to the world—in nutrition, diagnostics, medical devices and branded generic pharmaceuticals—that create more possibilities for more people at all stages of life. www.abbott.com

AcelRx Pharmaceuticals, Booth 500/502

www.acerlx.com

AcelRx Pharmaceuticals, Inc. is a specialty pharmaceutical company focused on the development and commercialization of innovative therapies for use in medically supervised settings. The company's non-invasive, sublingual formulation technology is designed to efficiently deliver highly lipophilic drugs with consistent pharmacokinetic profiles. In November of 2018, its lead product candidate DSUVIA™ (sufentanil sublingual tablet 30 mcg) was approved by the U.S. Food and Drug Administration. In the EU, the European Commission has granted marketing approval for DZUVEO (known in the US as DSUVIA) for use in medically monitored settings.

AIS HealthCare, Booth 307/309

www.aiscaregroup.com

AIS™ HealthCare provides sterile, patient-specific intrathecal pain pump medications for the management of chronic pain. AIS 503A pharmacy services are supported with Advanced Nursing Solutions, providing physicians and patients with in-

home pump refills, and a patient-centric Care Coordination Center that assists patients in achieving self-management goals and optimal wellness.

Alpinion Medical Systems, Booth 313

www.alpinion.com

ALPINION's innovative and recognized ultrasound brand 'E-CUBE' principles ('Extreme Clarity', 'Efficient Workflow', 'Ergonomic Design') reflect ALPINION's technological philosophy that provides customers with uniform image quality throughout the product lifetime. ALPINION has focused on acoustic engineering and front-end technology since we initiated our ultrasound business. There has traditionally been a strong focus on back-end processing in ultrasound; however, we shifted attention to the front-end with a focus on the signal quality sent to system processors. ALPINION focuses on continuous innovation in acoustic technology. ALPINION has developed a range of transducer array types and applied them to ALPINION's innovative E-CUBE series.

The American Society of Anesthesiologists (ASA), Booth 503

www.asahq.org

ASA® is the leading anesthesiology professional society with more than 53,000 members globally. Since its founding in 1905, the Society raises and maintains the standard of the practice of anesthesiology through education, advocacy and quality improvement by focusing on patient care and safety. ASA is dedicated to helping physician anesthesiologists and their care teams provide the highest quality of care in a patient-centered, physician led environment.

◆ Wine and Bubbly Networking Reception Sponsor ◆

Avanos, Booth 207

www.avanos.com

Avanos is a medical technology company focused on delivering clinically superior medical device solutions to improve patients' quality of life. Avanos is committed to addressing some of today's most important healthcare needs, such as reducing the use of opioids, providing longer-lasting pain relief and improving physical function. With a relentless focus on advancing change in the medical devices industry

to address unmet medical needs, Avanos provides pioneering pain management solutions such as COOLIEF* Cooled RF. Learn more at: www.avanospainmanagement.com.

Axiom Regenerative Therapies, Booth 411

www.carestreamamerica.com

Axiom Regenerative Therapies, a vanguard in empowering clinicians with evidence-based regenerative medicine, brings leading science to a chaotic “stem cell” landscape by arming you with the best practices in biotechnologies, a National Patient Registry and Digital Patient Care. Axiom makes you the beacon in uncertain regulatory waters by navigating the risks and rewards of next-generation, cell-enhanced ortho/spine surgery and pain management.

Basic Home Infusion, Booth 401

www.basichomeinfusion.com

Basic Home Infusion specializes in providing pharmacy and nursing services for intrathecal pumps nationwide for chronic pain and spasticity. Over 30 years of unmatched experience and reputation providing patient specific medications, at-home pump refills, dose titrations and MRI support, with excellence in safety, quality, service and access to optimize therapeutic outcomes and improve quality of life.

Specializing in Intrathecal Pump Management

Bioness, Booth 106

www.bioness.com

StimRouter is a peripheral nerve stimulation device that reduces pain by delivering gentle electrical pulses directly to a target peripheral nerve to disrupt pain signals. StimRouter is implanted via a minimally-invasive, outpatient procedure and is approved to treat chronic pain of peripheral nerve origin, excluding pain in the craniofacial region.

Boston Scientific, Booth 206/208www.controlyourpain.com

Boston Scientific is dedicated to providing physicians with a variety of solutions to manage patients suffering from chronic pain. Our growing portfolio of pain management product offerings include leading technologies in spinal cord stimulation, minimally invasive indirect decompression and radiofrequency ablation. Boston Scientific, 25155 Rye Canyon Loop, Valencia, CA 91355 USA, 661.949.4000, www.bostonscientific.com/pain

**Custom Interventional Pain Management, Booth 406**www.cipmtrays.com

Custom Interventional Pain Management specializes in custom procedural trays and injection products. CIPM delivers a high level of quality and customer service and can turn a first time custom order in less than 30 days with no supply agreement and the flexibility to make changes at anytime. Ph: 888-392-4514 www.cipmtrays.com.

**Diros Technology Inc., Booth 405**www.dirostech.com

Diros Technology Inc. is the designer, manufacturer, & distributor of the world renowned DIROS OWL® Radiofrequency (RF) Products. At our booth you will find a unique combination of products that together have the longest experience and continued success in the RF Pain Management market. With the most innovative OWL® URF-3AP Lesion Generator + MLA-4 with patent pending Quadrapolar™ technology, RF probes, Trident™ RF Cannulae, RF Cannulae, and GD-pads - all of your RF needs are met here. The OWL® RF Products are the safest, most reliable, most accurate, and easiest to use in the world. Looking forward to seeing you at our booth!

**Epimed, Booth 412**www.epimed.com

Epimed is a development, design, manufacturing and distribution company focusing on standard and unique solutions for physicians with an emphasis on outcomes and safety. We've been creating specialty

devices in Regional Anesthesia and Pain for over 40 years. At ASRA view our Site Specific Catheters, including the Racz® catheters, Spirol®, and the 24g Neo-Kath™ Spring Wound Catheter. We'll have our RX-2 Epidural Needles and Coudé® Blunt Nerve Block Needles. As for simulators, we'll display the injection simulators including the Genesis™, Thoraxis™ and newest simulator the Spinalis. Finally, we will display our PainBlocker™ Cryo line of Cryoanalgesia."

Erchonia Corporation, Booth 508

www.erschonia.com

Erchonia Corporation was founded in 1996 as a small family business, and even though we have grown into an international enterprise, we still

operate under the founding principles that guided us to our present success. Our commitment to the legitimate advancement of low-level laser therapy (3LT®) through scientific and clinical research has transformed Erchonia into a world leader in the field of LLLT technology. The integrity, diligence, quality and commitment of our company are evident in the rigorous process we follow in taking a research hypothesis from concept to viable, agency-approved product and treatment method. To ensure a steadfast adherence to our unique all-encompassing approach, our company serves as manufacturer, marketer, developer, promoter, creator and user of all our products.

ERCHONIA
World Leaders in Low Level Laser Technology

Flowonix Medical, Booth 108

www.flowonix.com

Flowonix Medical Inc. is committed to working with healthcare professionals to enhance patients' lives through targeted drug delivery innovation and therapy advancements. Founded in 2005, our work aims to provide physicians an optimal solution for the treatment of numerous neurological disorders, helping their patients improve their overall quality of living.

FLOWONIX

Fujifilm Sonosite, Booth 107

www.sonosite.com

SonoSite helped pioneer the concept of portable, point-of-care ultrasound, and it continues to be a world-leading manufacturer and innovator of bedside ultrasound systems. SonoSite's portable, compact systems are expanding the use of ultrasound across the clinical spectrum by cost-effectively bringing high-performance ultrasound to the point of patient care. For more information, go to: www.sonosite.com.

FUJIFILM
SONOSITE

GE Healthcare, Booth 409

www.gehealthcare.com

GE Healthcare is a leading provider of medical imaging, monitoring, biomanufacturing, and cell and gene therapy technologies. GE Healthcare enables precision health in diagnostics, therapeutics and monitoring through intelligent devices, data analytics, applications and services. With over 100 years of experience and leadership in the healthcare industry and more than 50,000 employees globally, GE Healthcare helps healthcare providers, researchers and life sciences companies in their mission to improve outcomes for patients around the world. Follow us on Facebook, LinkedIn, Twitter and The Pulse for latest news, or visit our website www.gehealthcare.com for more information.

Havel's , Booth 212

www.havels.com

Havel's revolutionary EchoStim[®], EchoBlock[®], and EchoBlock[®] MSK needles for Ultrasound Guided Peripheral Nerve Blocks and injections have 16 Corner Cube Reflectors (CCR[®]) in the first 5.5mm of the needle. This focus on the tip allows you to identify the most important part of the needle under ultrasound, and it allows Havel's to sell them at or below what most pay for a regular insulated needle. Havel's Micro Laser Etched (MLE[™]) needles are also bright under ultrasound and quite inexpensive. They have a variety of tips including block bevels, Quincke points, and the EchoTuohy[™]. Please call today for a free sample!

Heron Therapeutics, Inc., Booth 408

www.herontx.com

Heron's mission is to improve the lives of patients by developing novel, best-in-class treatments to address some of the most important unmet patient needs. We aim to develop patient-focused solutions by applying our innovative science and technologies with well-known pharmacology.

Konica Minolta Healthcare Americas, Booth 507

www.konicaminolta.com

Konica Minolta's ultrasound systems provide superior imaging for the visualization of structures around target areas to effectively perform nerve blocks and vascular access procedures. Using an advanced algorithm combining in-plane and out-of-plane methods to improve needle visibility, the SNV™ feature increases accuracy in needle placement, making it an ideal solution.

Nevro, Booth 101

www.nevro.com

Nevro is a global medical device company focused on providing innovative therapies that improve the quality of life of patients suffering from chronic pain. Nevro's Senza® spinal cord stimulation system is an evidence-based neuromodulation platform developed for treating chronic pain and the only SCS system that delivers Nevro's proprietary HF10™ therapy.

Nimbus RF, Booth 511

www.nimbusrf.com

The Nimbus RF Multitined Expandable Electrode was developed to address the unmet need for an easy to use, efficient, cost-effective RF device that provides a large volume 8mm-10mm prolate spheroid lesion, which the interventional pain specialist can use to treat pain. Nimbus allows for a simple “down the beam” approach to treat both simple and complex RF targets for pain. When compared to other large volume RF techniques such as cooled electrodes, Nimbus is more cost effective, efficient and requires no special equipment. Nimbus is the only large lesion RF device for pain with MRI validation of lesion size (601.7mm³).

North American Neuromodulation Society (NANS), Booth 509

www.neuromodulation.org

The North American Neuromodulation Society (NANS), is a medical specialty organization devoted to the advancement of the field of neuromodulation. NANS is dedicated to the pursuit of excellence in the application of all neuromodulation therapies. NANS is dedicated to being the premier organization representing this field. We promote multidisciplinary collaboration among clinicians, scientists, engineers and others to advance neuromodulation through education, research, innovation and advocacy. Through these efforts, NANS seeks to promote and advance the highest quality patient care.

Novartis Pharmaceutical Corporation, Booth 210

www.novartis.com

Novartis provides innovative healthcare solutions that address the evolving needs of patients and societies. Headquartered in Basel, Switzerland, Novartis offers a diversified portfolio to best meet these needs: innovative medicines, cost-saving generic and biosimilar pharmaceuticals and eye care. Novartis has leading positions globally in each of these areas. In 2017, the Group achieved net sales of USD 49.1 billion, while R&D throughout the Group amounted to approximately USD 9.0 billion. Novartis Group companies employ approximately 124,000 full-time-equivalent associates. Novartis products are sold in approximately 155 countries around the world. For more information, please visit www.novartis.com.

Nuvectra, Booth 311

www.nuvectramed.com

The logo for Nuvectra features the word "NUVECTRA" in a bold, sans-serif font. The letters "V" and "A" are highlighted in a light green color, while the remaining letters are in a dark grey or black color. A small trademark symbol (TM) is located at the top right of the letter "A".

Nuvectra® is a neuromodulation company committed to helping physicians improve the lives of people with chronic conditions. Nuvectra's Algovita® SCS system is approved in the United States and Europe for the treatment of chronic intractable pain of the trunk and/or limbs. To learn more about Nuvectra and our technologies, visit www.nuvectramed.com.

Pain Medicine News, Booth 505

www.anesthesiologynews.com

The logo for Pain Medicine News consists of the words "PAINMEDICINE NEWS" in a bold, sans-serif font. The word "PAIN" is in a dark blue color, "MEDICINE" is in a lighter blue color, and "NEWS" is in a dark blue color.

Pain Medicine News, the best-read pain publication in the United States according to Kantar Media, is mailed 10 times per year to 46,450 pain-treating physicians and 3 times per year to 46,760 pain-treating nurse practitioners and physician assistants. It offers extensive coverage of major scientific meetings affecting the specialty, feature articles on topics relevant to practicing provider, in-depth clinical reviews, practice management articles, medical education, as well as a full line of digital media, including the PainMedicineNews.com website, e-Newsletters, and multimedia content.

Pacira BioSciences, Inc., Booth 413

www.pacira.com

Pacira BioSciences, Inc. (NASDAQ: PCRX) is a leading provider of non-opioid pain management and regenerative health solutions dedicated to advancing and improving outcomes for health care practitioners and their patients. The company's long-acting local analgesic, EXPAREL® (bupivacaine liposome injectable suspension) was commercially launched in the United States in April 2012. EXPAREL utilizes DepoFoam®, a unique and proprietary product delivery technology that encapsulates drugs without altering their molecular structure, and releases them over a desired period of time. In April 2019, the company acquired the iovera® system, a handheld cryoanalgesia device used to deliver precise, controlled doses of cold temperature only to targeted nerves. To learn more about Pacira, including the corporate mission to reduce overreliance on opioids, visit www.pacira.com.

The logo for Pacira BioSciences, Inc. features the word "PACIRA" in a large, purple, serif font. A thin, grey, curved line arches over the letters "A", "C", and "I". Below "PACIRA", the words "BIOSCIENCES, INC." are written in a smaller, purple, sans-serif font.

Pajunk Medical Systems, Booth 104

www.pajunkusa.com

PAJUNK® is fully focused on Regional Anesthesia and Pain Management. We have a wide variety of products for single shot, continuous, and neuraxial procedures. Visit Booth 104 to learn more about our new echogenic SonoMSK needle for ultrasound-guided musculoskeletal injections; our Tuohy and TuohySono needles; a hubless RGN contrast needle; and custom procedural trays for chronic pain. Also available is the curved SPROTTE® needle for transforaminal epidural injections. In its 40th Anniversary year, the SPROTTE atraumatic spinal needle is getting a lot of fanfare. Stop by to learn more about how the Pajunk brothers and Prof. Sprotte created this innovation in 1979.

Pentec Health, Booth 410

www.pentechealth.com

Pentec Health, Inc. is a Joint Commission accredited specialty pharmacy and infusion provider that specializes in providing comprehensive care for patients with implanted pumps treating severe pain and/or spasticity. Our proprietary electronic communications platform ensures all disciplines remain informed and focused on improving patient outcomes.”

Prospira Pain Care, Booth 111

www.prospirapaincare.com

At Prospira PainCare, we are dedicated to recruiting and retaining world-class providers and are committed to ensuring their satisfaction is our priority. As contributors to the success of our organization, their earning potential is something we place a high importance on that we are prepared to deliver. Our consistent and accelerated growth has enabled us today, to offer physicians the premium compensation package they deserve.

Regional Anesthesia & Pain Medicine, Booth 510

<https://rapm.bmj.com>

Regional Anesthesia & Pain Medicine, the official publication of the American Society of Regional Anesthesia and Pain Medicine (ASRA), is a monthly journal that publishes peer-reviewed scientific and clinical studies to advance the understanding and clinical application of regional techniques for surgical

anesthesia and postoperative analgesia. Coverage includes intraoperative regional techniques, perioperative pain, chronic pain, obstetric anesthesia, pediatric anesthesia, outcome studies, and complications. Published for over thirty years, this respected journal also serves as the official publication of the European Society of Regional Anaesthesia and Pain Therapy (ESRA), the Asian and Oceanic Society of Regional Anesthesia (AOSRA), the Latin American Society of Regional Anesthesia (LASRA), the African Society for Regional Anesthesia (AFSRA), and the Academy of Regional Anaesthesia of India (AORA).

Editor-in-Chief: Marc A. Huntoon, MD, Virginia Commonwealth University Medical Center

Safersonic US, Inc., Booth 403

www.safersonic.com

It is time to UPGRADE your PATIENT'S CLINICAL EXPERIENCE, while protecting your EXPENSIVE

ULTRASOUND EQUIPMENT! Safersonic manufactures sterile ultrasound probe covers designed especially for your practice. Safersonic is the only company offering a 1-foot long cover which is an ideal length for many pain procedures. We eliminate the need for gel under the cover saving time and money. Faster Set-up time and Faster Breakdown. No gel under the cover means reduction in artifacts and better visualization. Eliminate transducer damage from cleaning. Available in various lengths for different applications. Fits all transducers. Reduce Inventory. SAVE TIME AND MONEY!

SPR Therapeutics, Inc., Booth 100/102

www.sprintPNS.com

The SPRINT® PNS System by SPR Therapeutics™ utilizes a percutaneously implanted 300 micron lead that delivers sustained pain relief in nearly 3 out of every 4 patients

even after the lead is removed following 60 days of treatment. The SPRINT PNS System is supported by more than 25 peer-reviewed publications and is uniquely positioned for use early in the care continuum. MOVE FORWARD FASTER!

◆ Bronze Sponsor ◆**◆ Wine and Bubbly Networking Reception Sponsor ◆****Stryker Interventional Spine, Booth 110/112**www.strykerivs.com

Our Mission: Together with our customers, we are driven to make healthcare better. By continuously investing in research and technology, we provide the most advanced medical technology for interventional spine procedures. From workplace awards, community service involvement and retaining the very best employees, we have a reputation worth honoring. Our more than 100 expert sales representatives are rigorously trained to support your practice, offer product and procedural consultation and be an active partner in helping you achieve goals.

Terason, Booth 513www.terason.com

Terason continues to revolutionize ultrasound for anesthesia with the next generation in high performance portable systems. The new uSmart 3200T Plus ultrasound system with its larger, 15.7" tablet screen provides unparalleled image clarity to help you see things clearer and faster—so you can make smart decisions for patient care. Terason's uSmart NexGen systems provide exceptional imaging capability and advanced features and functionality. These complete ultrasound solutions optimize workflow, enhance clinical efficacy, and increase productivity for everyday clinical needs.

TerSera Therapeutics LLC, Booth 501www.tersera.com

TerSera Therapeutics is a specialty pharmaceutical company headquartered in suburban Chicago with a focus on select therapeutic areas, including oncology and pain & inflammatory disorders. Our mission is to develop products which truly make a difference for patients. Our focus is to bring intelligent solutions to our customers that go beyond the therapy itself in order to provide improved patient outcomes. We look forward to meeting you!

Teva Pharmaceuticals, Booth 109

www.tevausa.com

Teva Pharmaceutical Industries Ltd. (NYSE and TASE: TEVA) has been developing and producing medicines to improve people's lives for more than a century. We are a global leader in generic and specialty medicines with a portfolio consisting of over 35,000 products in nearly every therapeutic area. Around 200 million people around the world take a Teva medicine every day, and are served by one of the largest and most complex supply chains in the pharmaceutical industry. Along with our established presence in generics, we have significant innovative research and operations supporting our growing portfolio of specialty and biopharmaceutical products. Vertos Medical, Booth 113

www.vertosmed.com

Vertos Medical Inc. is a medical device company committed to developing innovative, minimally invasive treatments for lumbar spinal stenosis (LSS). Its proprietary technologies include mild[®], which offers a safe, outpatient, minimally invasive, fluoroscopically guided therapeutic LSS treatment that requires no general anesthesia, no implants, and no stitches. LSS is primarily a degenerative, age-related narrowing of the lower spinal canal that causes symptoms of pain and numbness in the lower back, legs, or buttocks. mild[®] treats this condition by restoring space in the spinal canal using specialized mild[®] devices to remove hypertrophic ligamentum flavum through a 5.1 mm treatment portal. Clinical trials show that mild[®] can help LSS patients stand longer and walk farther with less pain, and no major device related complications have been reported. For more information, visit www.Vertosmed.com.

WellBrain, Booth 504

www.wellbrain.io

WellBrain is a digital chronic pain management and addiction prevention platform designed by doctors, for doctors. Founded by three Stanford, Harvard and Mayo Clinic trained pain physicians, WellBrain is designed to help providers understand their patients needs and facilitate optimal outcomes. WellBrain allows providers to efficiently assess, engage and monitor patients and track their physical and mental health over time. The ability to uncover valuable patient insights, document it, and offer data driven non-opioid modalities was and is the driving force behind the vision. Today, WellBrain has grown since

inception, into a valuable and robust toolset that providers can leverage to offer maximal quality of care, add an ancillary revenue stream to their practice, and protect themselves against risk in an ever more regulated environment.
